The DNR received \$8,600,000 from the RIIF in FY 2013 and \$5,459,000 in FY 2012. In FY 2011, the DNR received \$3,000,000 from the Revenue Bonds Capitals Fund II (RBC2) and \$7,000,000 from the RBC for a total of \$10,000,000. For FY 2009 and FY 2010, the DNR received a total of \$12,800,000 comprised of \$2,800,000 from the RIIF and \$10,000,000 from the RBC. In FY 2008, the funding was \$8,600,000 from the RIIF. The funds are used for projects identified in the Lake Restoration Annual Report and Plan focusing on the first 35 projects that make up the priority list of 127 lake candidates. The DNR must implement the projects in accordance with the Lake Restoration Report and Plan and Iowa Code section 456A.33B. The Report and Plan is submitted annually to the Transportation, Infrastructure, and Capitals Appropriations Subcommittee by January 1. Iowa Code section 456A.33B provides overall goals for the projects in the Program and water quality targets including clarity, biota, sustainability, and safety. The Lake Restoration 2013 Report and 2014 Plan proposes using FY 2015 funding for Lake Geode, Iowa Great Lakes, Blue Lake, Five Island Lake, Lake Manawa, Black Hawk Lake, Storm Lake, Kent Park Lake, Central Park Lake, Easter Lake, Lake of the Hills, Hickory Grove Lake, Union Grove Lake, as well as others depending on funding levels.

4 21 Of the amount appropriated in this lettered paragraph,

on the Iowa Great Lakes.

4 26 b. For the administration of a water trails and low head
4 27 dam public hazard statewide plan, including salaries, support,
4 28 maintenance, and miscellaneous purposes, notwithstanding
4 29 section 8.57, subsection 5, paragraph "c":
4 30 FY 2014-2015:
4 31 \$ 2,000,000

Rebuild Iowa Infrastructure Fund appropriation to the DNR for the Water Trails and Low Head Dam Safety Program. This appropriation notwithstanding the definition of vertical infrastructure.

DETAIL: This is an increase of \$1,000,000 compared to the FY 2014 level of funding. Funding levels have varied. The Water Trails and Low Head Dam Safety Program received \$1,000,000 from the RIIF in both FY 2014 and FY 2013. The Program received \$800,000 in an FY 2010 appropriation from the RIIF and an FY 2009 appropriation of \$250,000 from federal stimulus funds. In addition, in FY 2010, the Natural Resource Commission approved using \$1,000,000 of an FY 2010 RBC appropriation (that provided \$13,500,000 for watershed rebuilding and water quality improvement projects) on the Water Trails and Low Head Dam Safety Program. In FY 2009, there was an appropriation of \$1,000,000 from the RIIF, but the entire amount was transferred to the Jumpstart Housing Assistance Program, so the DNR did not have use of the funds. The funds support grant awards to local entities for water trail enhancements and dam mitigation grants to dam owners, including State and local government entities and private owners, to improve low head dam safety.

4 32 Of the amount appropriated in this lettered paragraph,
4 33 \$300,000 shall be used to develop a river restoration program
4 34 that establishes statewide criteria and regional targeting,
4 35 and identifies meaningful and effective river restoration
5 1 priorities and \$700,000 shall be used to provide cost-share
5 2 opportunities to initiate and complete river restoration
5 3 projects across the state.

The increase in funding will implement a river restoration program, developed by a wide range of stakeholders, that provide a framework for targeted restoration, preservation, enhancement and beneficial use of Iowa's rivers. The DNR will add staff to research stream restoration techniques, consult professionals in other states, and develop a network of Iowans knowledgeable about stream restoration. The program will develop statewide criteria and regional targeting for effective river restoration priorities and initiate several demonstration projects.

5 4 c. For the establishment of a new state park in a county
5 5 with a population between 11,500 and 11,600 in the latest
5 6 preceding certified federal census:
5 7 FY 2014-2015:
5 8 \$ 2,000,000

Rebuild Iowa Infrastructure Fund appropriation to the DNR for the establishment of a new state park in Lyon County.

DETAIL: This is a new appropriation for FY 2015. Funding will be used for planning and land acquisition to establish the Good Earth State Park at Blood Run. Blood Run has been a national historic landmark covering 844 acres along the Big Sioux River in Iowa and South Dakota since 1970. The Iowa State Historical Society acquired a 230 acre tract in 1987. In a joint venture with South Dakota Total funding requested of the State is \$5,100,000 over two to three years.

5 9 d. For funding projects of the Iowa parks foundation

Rebuild Iowa Infrastructure Fund appropriation to the DNR for the Iowa

5 10 that support the centennial celebration of state parks,

 5 12 FY 2014-2015:
 5 13 \$ 2,000,000

Parks Foundation to promote parks in Iowa. This appropriation notwithstanding the definition of vertical infrastructure.

DETAIL: This is a new appropriation for FY 2015. Funding is provided for a Regional Parks pilot project to leverage the State funding with matching private, foundation, and local government funding between \$5,000,000 and \$10,000,000 in total project investment. Project funding is intended to pay for engineering and construction of park amenities like trails, shelters, silt basins, cabins and other infrastructure intended to improve utilization parks projects at State, county and city parks within each region.

5 14 7. DEPARTMENT OF PUBLIC DEFENSE
 5 15 a. For major maintenance projects at national guard
 5 16 armories and facilities:
 5 17 FY 2014-2015:
 5 18 \$ 2,000,000

Rebuild Iowa Infrastructure Fund appropriation to the Department of Public Defense (DPD) for major maintenance projects at National Guard facilities throughout the State.

DETAIL: Maintains the current level of funding compared to estimated FY 2014. State funds for FY 2015 will be matched one to one with federal funds for the first \$1,500,000. Funding above that level is matched with federal funds at a ratio of four to one. Therefore, the \$2,000,000 in State funds will draw down \$3,500,000. Funds provide major maintenance to the National Guard's readiness centers. Projects include roof repairs, upgrades to HVAC, electrical, and plumbing systems, additional classroom and office space, and other major maintenance and improvement projects at all 41 armories and other buildings maintained by the Iowa National Guard. The Iowa National Guard armories are facing a backlog of deferred maintenance and equipment upgrade needs. Funding will be used for priority and emergency repairs first and begin to address the backlog per funding available.

5 19 b. For construction improvement projects at statewide
 5 20 readiness centers:
 5 21 FY 2014-2015:
 5 22 \$ 2,000,000

Rebuild Iowa Infrastructure Fund appropriation to the DPD for modernization and improvement projects at National Guard readiness centers around the State.

DETAIL: Maintains the current level of funding compared to estimated FY 2014. The modernization effort received \$1,800,000 each year from FY 2009 through FY 2012 and \$2,050,000 from the RIIF in FY 2013. State funds will be matched one to one with federal funds. The initial federal funds, known as "Murtha funds," were part of a one-time increase of \$94,900,000 made available through the federal FY 2008 Department of Defense Appropriation Act, HR 3222, to accelerate the modernization of critical operational and support facilities to ensure that readiness centers meet the State needs for emergencies as well as for federal U.S. Army missions. Funds from prior years improved readiness centers in Oelwein, Charles City, Perry, Audubon, Knoxville, Iowa City, Washington, Dubuque, Council Bluffs, and the Camp Dodge

Joint Forces Miller Armory. The FY 2014 funds will be used for Mason City and Sioux City readiness centers for various improvements, including HVAC and electrical upgrades. The FY 2015 funding will be used for renovations of the facilities in Centerville and Carroll. All facilities will be upgraded with new, more efficient mechanical and electrical equipment, new windows and new finishes. All exteriors will be upgraded, improving parking, landscaping, and drainage where necessary.

5 23 c. For exhibits highlighting lowans and their service at
5 24 the gold star museum, notwithstanding section 8.57, subsection
5 25 5, paragraph "c":
5 26 FY 2014-2015:
5 27 \$ 250,000

Rebuild Iowa Infrastructure Fund appropriation to the DPD for improvements and upgrades at the Iowa Gold Star Museum located at Camp Dodge.

DETAIL: This is a new appropriation for FY 2015. The Iowa Gold Star Museum was established in 1985 and was originally located on the first floor of the Camp Dodge Memorial Building. In 1994 the museum was moved to the old headquarters building and in 2008, with a \$4,000,000 State appropriation, an 18,000 square foot addition was constructed. Opening in 2009, the museum is engaged in an ongoing effort to complete interpretive and interactive exhibits. This appropriation, part of \$2,700,000 project, will be used to further the completion of exhibit space at the museum by constructing new interactive displays and exhibitions within the gallery.

5 28 8. BOARD OF REGENTS
5 29 a. For allocation by the state board of regents to the
5 30 state university of Iowa, Iowa state university of science
5 31 and technology, and the university of northern Iowa to
5 32 reimburse the institutions for deficiencies in the operating
5 33 funds resulting from the pledging of tuition, student fees
5 34 and charges, and institutional income to finance the cost of
5 35 providing academic and administrative buildings and facilities
6 1 and utility services at the institutions:
6 2 FY 2014-2015:
6 3 \$ 29,735,423

Rebuild Iowa Infrastructure Fund appropriation to the Board of Regents for the tuition replacement appropriation that pays debt service on academic revenue bonds.

DETAIL: This is an increase of \$1,867,648 compared to estimated FY 2014. The appropriation replaces student tuition and fees required to pay the debt service on academic revenue bonds authorized in prior fiscal years. Iowa Code chapter 262A, enacted in the 1969 Legislative Session, authorizes the sale of academic revenue bonds. The first academic revenue bonds were issued in 1970 and provided the primary source of funds for construction of academic facilities at the universities for several decades. The academic revenue bonds issued by the Board of Regents are secured by student tuition and fees and are considered independent and not part of State obligations. The State regularly provides this appropriation to the Board of Regents and pays most of the debt service on the academic revenue bonds through the appropriation process. The appropriation is not mandatory by statute, but the Board of Regents has previously indicated that without a tuition replacement appropriation, an aggregate increase of 5.00% in tuition across the universities would be required to pay the debt service. Therefore, the General Assembly provides the appropriation to keep tuition costs lower for students. The tuition replacement appropriation provides most of the annual debt service on the

academic revenue bonds, but a portion of the debt service is paid from reserve fund interest.

Funding for tuition replacement has been provided for many decades. Until FY 2002, the appropriation was made solely from the General Fund. After FY 2002, a portion was funded from the General Fund and from the infrastructure-related funds such as the RIIF and the Restricted Capital Fund. From FY 2006 to FY 2008, funding for this appropriation was divided between the General Fund and the RIIF. Since FY 2009, the entire appropriation has been funded from the RIIF. The increase in FY 2014 and FY 2015, as compared to prior years, is due to the additional academic revenue bonds that are being issued in accordance with the authorization provided by the 2009 Legislative Session in SF 474 (Regents Bonding Act).

6 4 b. For costs associated with the renovation, modernization,
6 5 and construction of a new addition at the pharmacy building at
6 6 the state university of Iowa:
6 7 FY 2014-2015:
6 8 \$ 2,000,000

Rebuild Iowa Infrastructure Fund appropriation to the Board of Regents for planning, design, and renovation of the Pharmacy Building on the campus of the University of Iowa (UI).

DETAIL: This is a new appropriation for FY 2015. The present Pharmacy Building at the UI is comprised of two wings. While the 1996 tower remains in good condition, the 1961 wing is functionally and operationally obsolete, using 22% more energy than the energy used next least efficient building using gross square footage of building space. The demolition and replacement of the 1961 wing will eliminate \$18,000,000 in deferred maintenance and a net present value of energy cost savings of as much as \$46,000,000 over the next 50 years.

The total cost of the new pharmacy building is estimated at \$96,300,000. A total of \$70,300,000 is requested of the State over a four-year period with the remainder raised through private contributions and other sources.

6 9 c. For the construction of a new facility and an addition,
6 10 renovation, and modernization of current facilities and related
6 11 improvements for biosciences at Iowa state university of
6 12 science and technology:
6 13 FY 2014-2015:
6 14 \$ 2,000,000

Rebuild Iowa Infrastructure Fund appropriation to the Board of Regents for planning, design and construction of the Biosciences Building on the Iowa State University (ISU) campus.

DETAIL: This is a new appropriation for FY 2015. Funds are appropriated to begin the construction of a new biosciences addition on to Bessey Hall and a new Advanced Teaching and Research Building on the campus of ISU. The project is a combination of both remodeling and new construction that replaces outdated buildings and increases instructional and research space, addressing needs in six academic departments. When completed a total of 142,000 square feet of additional classroom and laboratory space will have been added, along with 12,000 square feet of greenhouse space.

The project will also involve the demolition of as many as seven outdated buildings including Industrial Education II, the Genetics Building, and Insectary. Combined with renovation of existing space and repurposing of additional space, a total of \$6,000,000 in deferred maintenance can be eliminated.

The cost of the project is estimated at \$80,000,000. A total of \$55,000,000 is requested from the State over a four-year period with the remainder of \$25,000,000 raised through private donations and other sources.

6 15 d. For the renovation, modernization, and associated
6 16 improvements to an educational center for teacher education and
6 17 preparation at the university of northern iowa:
6 18 FY 2014-2015:
6 19 \$ 2,000,000

Rebuild Iowa Infrastructure Fund appropriation to the Board of Regents for planning, design, and renovation of the Schindler Education Center on the campus of the University of Northern Iowa (UNI).

DETAIL: This is a new appropriation for FY 2015. Funds are appropriated to begin the renovation of the 150,000 square foot Schindler Education Center. Schindler Education Center was opened in two sections, unit 1 was opened in 1972, and unit 2 in 1973. The mechanical and electrical systems are original to the building and require replacement. The renovated space will create classroom simulation spaces providing teacher candidates with space that can be modeled to similar to learning environments found in K-12 settings.

The cost of the project is estimated at \$32,900,000 all requested from the State. This project will eliminate \$10,300,000 in deferred maintenance on the structure.

6 20 9. STATE FAIR AUTHORITY
6 21 For infrastructure costs associated with renovations and
6 22 improvements to the youth inn on the Iowa state fairgrounds:
6 23 FY 2014-2015:
6 24 \$ 825,000
6 25 FY 2015-2016:
6 26 \$ 2,325,000

Rebuild Iowa Infrastructure Fund appropriation to the Iowa State Fair Authority for the renovation of the Youth Inn at the Iowa State Fairgrounds.

DETAIL: This is a new appropriation for FY 2015 and FY 2016. The Youth Inn was built in 1939, where 4-H and Future Farmers of America youths reside every year during the State Fair. Youths show livestock and participate in many other programs during the course of the State Fair. Funding will address improvements including: handicap accessibility to all areas and facilities, removal and replacement of the roofing system, removal and replacement of the mechanical system, dormitory rehabilitation, and the addition of a heating system so that the Youth Inn can be utilized throughout the year.

6 27 10. DEPARTMENT OF TRANSPORTATION
6 28 a. For acquiring, constructing, and improving recreational
6 29 trails within the state:

Rebuild Iowa Infrastructure Fund appropriation to the Department of Transportation (DOT) for the State Recreational Trails Program.

6 30 FY 2014-2015:
 6 31 \$ 10,280,000

DETAIL: This is an increase of \$7,280,000 compared to estimated FY 2014. Funding has varied over the years. The Program received \$3,000,000 in FY 2014, FY 2013, and FY 2012 from the RIF, but did not receive funding in FY 2011. In FY 2010, the Program received \$3,500,000, but a total of \$1,250,000 of that amount was earmarked for specific trails. In FY 2009, the Program received \$3,000,000, but a total of \$1,180,000 was designated to specific trails. In FY 2008, the Program received \$2,000,000 with \$415,000 designated to specific trails. When there are allocations for certain trails specified in session law, the grants do not go through the typical application and approval process by the Transportation Commission. For FY 2014, there were no specific allocations. The specific allocations made for the FY 2015 appropriations are identified below.

Funds for the Program are used for grants for statewide recreational trails. The trail system is approximately 1,505 miles, including multiuse trails and off-road paths. A local match of 25.00% is required in accordance with the Department administrative rules. Trails that receive funding must be maintained for public use for a minimum of 20 years. Applications for funding from the trails program are considered twice per year and are approved by the Transportation Commission. The FY 2014 funding provided grants for the Ankeny connector to High Trestle Trail, Bellevue Riverview trail, Decorah's Trout Run Trail to Prairie Farmer Recreational Trail connector, Farragut to Shenandoah Trail connection, Iowa Scenic River Trail, Pioneer Beach Road Trail, the Riverdale section of the Multiuse Mississippi River Trail, and the Raccoon River Valley Trail to High Trestle Trail connector.

6 32 (1) Of the amount appropriated in this lettered paragraph,

 7 22 definition of "vertical infrastructure" in section 8.57,
 7 23 subsection 5, paragraph "c":
 7 24 FY 2014-2015:
 7 25 \$ 1,500,000

Rebuild Iowa Infrastructure Fund appropriation to the DOT for public transit infrastructure grants through the Public Transit Infrastructure Grant Fund.

DETAIL: Maintains the current level of funding compared to estimated FY 2014. Funding has varied in recent years. For FY 2014, FY 2013 and FY 2012, funding levels were \$1,500,000 from the RIIF. The Program received \$2,000,000 from the RBC2 in FY 2011, \$1,250,000 in FY 2010 from the RIIF, and \$2,200,000 in FY 2009 from the RBC. The RBC funds were not available until FY 2010. Grants are provided for infrastructure-related projects at the 35 public transit agencies throughout the State. Transit agencies are eligible to apply for the grants that are approved through the Transportation Commission and the projects must meet the definition of vertical infrastructure. The State match requirement is up to 80.00%. Funds are used for capital projects such as new bus storage buildings, administrative buildings, maintenance facilities, storage buildings, reconstruction of steam cleaning areas, vehicle storage and wash bays, as well as replacing roofs or other improvements.

7 26 c. For infrastructure improvements at the commercial
 7 27 service airports within the state:
 7 28 FY 2014-2015:
 7 29 \$ 1,500,000

Rebuild Iowa Infrastructure Fund appropriation to the DOT for vertical infrastructure improvements at commercial service airports.

DETAIL: Maintains the current level of funding compared to estimated FY 2014. For FY 2014, FY 2013, and FY 2012, the DOT received \$1,500,000 from the RIIF. The DOT received \$1,500,000 from the RBC2 for FY 2011. In FY 2010, the appropriation of \$1,500,000 came from the General Fund and was subject to the across-the-board reduction, so the amount was reduced to \$1,350,000. There are eight commercial service airports in the State. They are located in Burlington, Cedar Rapids, Des Moines, Dubuque, Fort Dodge, Mason City, Sioux City, and Waterloo.

The funds are distributed by a 50/40/10 formula. For this appropriation, \$750,000 will be allocated equally between each of the commercial service airports, \$600,000 will be allocated based on the percentage of enplaned passengers during the previous fiscal year, and \$150,000 will be allocated based on the proportion of air cargo tonnage at each

airport during the previous fiscal year. Airports submit applications to the DOT Office of Aviation for specific projects that are approved by the Transportation Commission. No local match is required.

Projects must meet the definition of vertical infrastructure. Projects approved for commercial service airports with the FY 2014 funding include construction of a new terminal building at Dubuque Regional, construction of an aircraft maintenance building at Des Moines International, roof replacements at Cedar Rapids Regional, hanger construction and rehabilitation at Sioux City Gateway, hanger rehabilitation at Waterloo Regional, hanger construction at Burlington Regional, and reconfiguration of the flight service station and hanger demolition at Fort Dodge Regional.

7 30	d. For infrastructure improvements at general aviation		
7 31	airports within the state:		
7 32	FY 2014-2015:		
7 33	\$	750,000

Rebuild Iowa Infrastructure Fund appropriation to the DOT for vertical infrastructure improvements at general aviation airports.

DETAIL: Maintains the current level of funding compared to estimated FY 2014. General aviation vertical infrastructure projects receive State matching grants of up to 85.00% of the total project costs, and require a minimum level of \$5,000 in local match to be considered. Projects must meet the definition of vertical infrastructure. Eligible airports apply to the DOT Office of Aviation and projects are approved by the Transportation Commission. These grants are available only to general aviation airports. Of the 109 publicly owned airports in the State, 101 are general aviation airports that are eligible. According to the DOT, approximately 88.00% of all flights in Iowa are general aviation related. Projects approved for general aviation airports with the FY 2014 funding hanger construction at Ankeny Regional, Charles City Regional, and Emmetsburg Municipal. Projects also include hanger rehabilitation and renovation at Davenport, Fort Madison, Marshalltown, Red Oak, Webster City, and Ottumwa Airports.

7 34	e. For deposit in the railroad revolving loan and grant		
7 35	fund created in section 327H.20A, notwithstanding section 8.57,		
8 1	subsection 5, paragraph "c":		
8 2	FY 2014-2015:		
8 3	\$	4,000,000

Rebuild Iowa Infrastructure Fund appropriation to the DOT for the Railroad Revolving Loan and Grant Program.

DETAIL: This is a new appropriation for FY 2015. The funds are used to provide grants and loans for construction and improvements to railroad facilities, such as railroad main lines, branch lines, switching yards, sidings, rail connections, intermodal yards, and highway grade separations. The Railroad Revolving Loan and Grant Program is geared toward job growth and economic development, so many of the grants have gone to construct spur lines that service ethanol and biodiesel plants. The Program has three eligible funding categories that include job creation, rail network improvement, and rail port planning and development. Industries, railroads, local governments, or economic development agencies are eligible to apply for grants and loans from

the Program.

Funding has fluctuated over the last several years. The program received an appropriation of \$1,500,000 in FY 2013 from the RIIF and \$2,000,000 in FY 2012. The Program received \$2,000,000 in FY 2011 that was directed to the City of Davenport (Eastern Iowa Industrial Center) for a rail transload facility. In FY 2010, the appropriation was \$1,500,000 from the RIIF, with \$1,000,000 directed to replace the railroad bridge in Waterloo that collapsed in the June 2008 floods.

In FY 2011, there was also an RBC2 appropriation of \$7,500,000 for rail improvements and rail ports with grants to local entities for the development of freight rail and industrial park facilities to foster economic development and encourage manufacturers to locate into Iowa. The funding was granted through the competitive grant process by the Transportation Commission and followed criteria under the Railroad Revolving Loan and Grant Program in addition to the criteria added to the RBC2 appropriation. Grants were awarded to Iowa City (Wind Energy Supply Chain Industrial Park), Sioux City (Southbridge Rail Yard), City of Clinton (Lincoln Way Rail Port), and Worth County (Manly Terminal Wind Rail Port) for rail port projects.

A study will focus on industries and agencies based in Johnson and Linn counties to identify the needs of employers, projected demand, capital and operating costs, and determine the pros and cons of various structures associated with a public transit between the Cedar Rapids and Iowa City metro areas. There are an estimated 8,300 commuters traveling between the two metro areas on a daily basis. The I-380 traffic volume

in 2010 was 49,400 vehicles per day and estimated to grow to 71,000 vehicles according to the DOT.

Examples of recent projects with the funding include renovations to sheep barns, grandstand roofs, offices, adding ADA compliant restrooms and showers, new hoop buildings, new cattle barns, repairs due to storm damage, new community centers and exhibit buildings, renovations to main auditoriums, and remodeling of horse barns.

9 5 Sec. 2. REVERSION. For purposes of section 8.33, unless
 9 6 specifically provided otherwise, unencumbered or unobligated
 9 7 moneys made from an appropriation in this division of this Act
 9 8 shall not revert but shall remain available for expenditure for
 9 9 the purposes designated until the close of the fiscal year that
 9 10 ends three years after the end of the fiscal year for which the
 9 11 appropriation is made. However, if the project or projects for
 9 12 which such appropriation was made are completed in an earlier

9 15 DIVISION II
 9 16 TECHNOLOGY REINVESTMENT FUND

Division II appropriates a total of \$9.8 million from the Technology Reinvestment Fund (TRF).

9 17 Sec. 3. There is appropriated from the technology
 9 18 reinvestment fund created in section 8.57C to the following
 9 19 departments and agencies for the following fiscal years, the
 9 20 following amounts, or so much thereof as is necessary, to be
 9 21 used for the purposes designated:

9 22 1. DEPARTMENT OF CULTURAL AFFAIRS
 9 23 For providing a grant to a museum district for the Sullivan
 9 24 brothers veterans museum for costs associated with the
 9 25 oral history exhibit including but not limited to exhibit
 9 26 information technology, computer connectivity, and interactive
 9 27 display technologies:
 9 28 FY 2014-2015:
 9 29 \$ 500,000

Technology Reinvestment Fund appropriation for FY 2015 to the Department of Cultural Affairs for distribution to the Grout Museum in Waterloo for the Sullivan Brothers Iowa Veterans Museum oral history collection.

DETAIL: This is a new appropriation for FY 2015. The Sullivan Brothers Iowa Veterans Museum is participating in the United States of America Vietnam War Commemoration scheduled for 2015-2017. Funding will be used to develop a virtual wall honoring Iowans that died, or are still listed as POW/MIA. The virtual wall will be hosted on a website, Faces To Go With Names: Iowa's Fallen Vietnam Soldiers. A separate interactive exhibit including images and video will feature the role of the helicopter in Vietnam. During the 2012 Legislative Session, a total of \$279,450 over a two-year period was appropriated to develop an interactive oral history collection for units deployed in Iraq and Afghanistan. The Sullivan Brothers Iowa Veterans Museum received a total of \$986,250 in FY 2009 and FY 2010 from the Technology Reinvestment Fund for development of the Veterans oral history interactive exhibit. The additional funds will expand the oral history project to include the generation of veterans and civilian soldiers that have served since 2002. The Sullivan Brothers Iowa Veterans Museum received \$1,000,000 in FY 2006 from the RIIF for construction and site development of the veteran's oral histories exhibit.

9 30 2. DEPARTMENT OF EDUCATION
 9 31 a. For maintenance and lease costs associated with
 9 32 connections for part III of the Iowa communications network:
 9 33 FY 2014-2015:
 9 34 \$ 2,727,000

Technology Reinvestment Fund appropriation to the Department of Education to pay the costs of maintenance and leases associated with Part III fiber connections for the ICN.

DETAIL: Maintains the current level of funding compared to estimated FY 2014. The fiber optic cable for Part III sites is leased from the private sector from the vendors that installed the cable. The ICN administers leased digital data circuits to approximately 442 K-12 facilities and districts, libraries, and area education agencies (AEAs). According to the ICN, 82.9% of the total usage of video hours by K-12 facilities, AEAs, and libraries was provided through Part III sites. These leases and maintenance costs are a continuation of the Part III build-out project authorized during the 1995 Legislative Session. The funding is used for the leases and maintenance expenses. State funding draws down federal Universal Service Fund E-rate moneys that pay for the additional cost of leasing the data circuits. Total costs for the leases

and maintenance for FY 2015 is estimated at \$3,647,000.

Technology Reinvestment Fund appropriation to the Department of Education for development and implementation of a statewide education data warehouse.

DETAIL: Maintains the current level of funding compared to estimated FY 2014. The funds will support a statewide education data warehouse that is used in conjunction with system-wide improvements for education resources and accessibility of the resources. The data warehouse, known as EdInsight, is intended to create a combined education information system for teachers, parents, administrators, AEA staff, policymakers, and other staff. The purpose is to facilitate the flow of student transcript data between Iowa high schools and postsecondary institutions nationally, postsecondary institutions across the country, and to facilitate flow of student records among Iowa school districts. EdInsight is designed to provide tools to evaluate individual student and group performance over time. In addition, funds are used for the e-Transcript data system and for the development of a permanent repository for the records. The operation of the system, including ongoing licensing and fees, costs approximately \$1,000,000 annually. The Department pays \$400,000 of the cost with federal funding.

Authorizes the Department of Education to use the funds from this appropriation for its e-transcript data system because both e-transcript and the data warehouse are components of a longitudinal data system that provides the ability to track students throughout their education via interconnectivity with multiple schools.

Technology Reinvestment Fund appropriation to the Department of Education for a common course numbering management system.

DETAIL: This is a new appropriation for FY 2015. Funding will be used to maintain a cloud-based program and common course numbering management system. The system will be used for the State's approval process for community college programs, and will streamline an otherwise labor-intensive process and enhances collaboration and state oversight. This will be the first comprehensive curriculum network in the nation including all colleges and the state office and detailed program and course information.

Technology Reinvestment Fund appropriation to the Iowa Public Television (IPTV) for equipment replacement and tower and facility maintenance.

9 35 b. For the continued development and implementation of an
10 1 education data warehouse that will be utilized by teachers,
10 2 parents, school district administrators, area education agency
10 3 staff, department of education staff, and policymakers:
10 4 FY 2014-2015:
10 5 \$ 600,000

10 6 The department may use a portion of the moneys appropriated
10 7 in this lettered paragraph for an e-transcript data system
10 8 capable of tracking students throughout their education via
10 9 interconnectivity with multiple schools.

10 10 c. For the development of an automated workflow process for
10 11 a program and common course numbering management system for
10 12 community colleges:
10 13 FY 2014-2015:
10 14 \$ 150,000

10 15 d. To the public broadcasting division for the replacement
10 16 of equipment and for tower and facility maintenance:
10 17 FY 2014-2015:
10 18 \$ 1,000,000

DETAIL: This is an increase of \$40,000 compared to estimated FY 2014. According to the IPTV, with the conversion to digital broadcasting and digital equipment, stations moved from proprietary hardware to commoditized hardware that runs specialized software bundled as systems. The useful life for the commoditized hardware is shorter, typically two to three years and serviceable for up to five or six years. Analog equipment typically had a 10-year useful life and is often serviceable up to 20 years. The IPTV evaluated the equipment and a plan for replacement based on the commoditized hardware life expectancy. The IPTV will review and update the plan each year to ensure replacements are made strategically. For FY 2015, the funding will include the following replacements: editing software and hardware; the image storage system; tower lighting at the Ft. Madison and Rock Rapids towers; the system controlling the monitors in Master Control; and the text-based video graphics in the studio and mobile unit. Funding will also be used to update the studio generator and replace the Program and System Information Protocol generator.

Technology Reinvestment Fund appropriation to the Department of Human Rights (DHR) for continued development and implementation of the Criminal Justice Information System (CJIS).

DETAIL: This is a decrease of \$154,734 compared to estimated FY 2014. Funding levels have varied. In FY 2014 the CJIS project received \$1,454,734 and in FY 2013 CJIS received \$1,714,307 from the TRF. In FY 2012, the project received \$1,689,307. Total funding received between FY 2007 and FY 2009 was \$7,366,384. The CJIS will enable and facilitate the automated exchange of criminal justice information among local, State, and federal criminal justice agencies. This initiative is to develop a seamless, real-time, and electronic information sharing system for members of the criminal justice community in Iowa. Current collaboration with other criminal justice systems includes the County Attorney ProLaw Case Management and Judicial Dialog Case Management systems, Traffic and Criminal Software (TraCs) system, ICON, Iowa Online Warrants and Articles, Iowa Court Information system, and others. Funds are used for operation of the system, further development, information technology and network hosting, and software needed for the system.

The CJIS has a number of exchanges that are 100.00% implemented, meaning that the CJIS centralized computer system is fully programmed to receive and transmit information to be exchanged and that all possible state, local, and in some cases, federal agencies are actively sharing information through the CJIS system for that exchange. These exchanges include: the adult data warehouse; the juvenile data warehouse; protective orders; protective orders served; orders for presentence investigations; presentence investigation

10 19	3. DEPARTMENT OF HUMAN RIGHTS		
10 20	a. For the cost of equipment and computer software for the		
10 21	implementation of Iowa's criminal justice information system:		
10 22	FY 2014-2015:		
10 23	\$	1,300,000

reports; National Instant Check System (NICS); OWI dispositions; sex offender address updates; and others.

Technology Reinvestment Fund appropriation to the DHR for the Justice Data Warehouse.

DETAIL: This appropriation will support the maintenance and hosting costs of the Teredata platform shared by the Division of Criminal and Juvenile Justice Planning (CJJP) and the Department of Revenue (DOR). The two entities have shared the platform since 1999 as the Enterprise Data Warehouse (EDW). Through the application the DOR operates the Tax Gap Analysis, a database that has generated millions of dollars in General Fund revenue. The CJJP and Department of Corrections (DOC) rely on the Justice Data Warehouse (JDW) for core data functions and daily processes to generate reports and statistics. The DOR purchased a new server in June 2013 and CJJP will be paying the expense of maintenance and hosting.

Technology Reinvestment Fund appropriation to the DHS for The Homestead to provide technology for clinics through the Children's Autism Project.

DETAIL: This is an increase of \$844 compared to FY 2014. In FY 2014, funds were to be used to purchase video technology and Internet services for the clinics that are being established. The Homestead is a nonprofit agency that provides services and solutions for people with autism. The core of the agency's services focuses on Applied Behavior Analysis (ABA) intervention. The Children's Autism Project provides one-to-one treatment for children ages 3 to 8 years old, providing intensive early intervention using ABA. The Homestead opened a clinic in Hiawatha (also serving the Cedar Rapids area) in March 2013 and one in Clive in May 2013, and plans to open two clinics in Waterloo and Davenport in FY 2015. In addition to the TRF appropriation, a FY 2013 supplemental appropriation of \$800,000 from the General Fund was provided for the renovating the facilities for the clinics.

Technology Reinvestment Fund appropriation to the Iowa Telecommunication and Technology Commission (ITTC) for the replacement of equipment for the Iowa Communications Network (ICN).

DETAIL: This is a decrease of \$3,000 compared to estimated FY 2014. The FY 2014 appropriation was used to replace aging ICN voice equipment and add features such as caller ID, compliance with eDiscovery laws, and redundancy on the network. The ICN is seeking

10 28 4. DEPARTMENT OF HUMAN SERVICES
10 29 For a grant to a nonprofit agency that provides innovative
10 30 solutions to children and adults with autism in a city with a
10 31 population between 14,500 and 15,500 as determined by the 2010
10 32 federal decennial census for the cost associated with internet
10 33 services and video communications systems for clinics:
10 34 FY 2014-2015:

11 1 5. IOWA TELECOMMUNICATIONS AND TECHNOLOGY COMMISSION
11 2 For replacement of equipment for the Iowa communications
11 3 network:
11 4 FY 2014-2015:
11 5 \$ 2,245,653

to provide unified communications features for agencies and will upgrade the equipment for that effort.

In addition, funds are used for upgrading to Internet Protocol (IP) video technology and offering a better quality video via an Internet Protocol option to existing educational users. This appropriation is also used as a required match for the State to continue to receive a Universal Service Fund E-rate video discount that is passed on to school districts and libraries. For FY 2013 and FY 2014, the federal E-rate funds are estimated at approximately \$1,200,000 to support video for schools and libraries. All public and private K-12 schools and libraries are eligible for Universal Service Fund discounts. The Department of Education applies for the E-rate funds on behalf of a statewide consortium in order minimize filing requirements for individual schools.

11 6 The commission may continue to enter into contracts pursuant
11 7 to section 8D.13 for the replacement of equipment and for
11 8 operation and maintenance costs of the network.
11 9 In addition to moneys appropriated in this subsection,
11 10 the commission may use a financing agreement entered into by
11 11 the treasurer of state in accordance with section 12.28 for
11 12 the replacement of equipment for the network. For purposes
11 13 of this subsection, the treasurer of state is not subject to
11 14 the maximum principal limitation contained in section 12.28,
11 15 subsection 6. Repayment of any amounts financed shall be made
11 16 from receipts associated with fees charged for use of the
11 17 network.

Permits the ITTC Commission to continue to enter into contracts for the IP video technology and for operations and maintenance of the ICN. Authorizes the Commission to replace equipment for the backbone of the ICN through financing with the Treasurer of State. Specifies that the Treasurer of State is not subject to the maximum principal limitation of \$1,000,000 in accordance with Iowa Code section 12.28(6) for purposes of these costs. Requires repayment to be made from receipts associated with fees charged to use the ICN.

11 18 6. DEPARTMENT OF MANAGEMENT
11 19 For completion of a comprehensive electronic management
11 20 system:
11 21 FY 2014-2015:
11 22 \$ 100,000

Technology Reinvestment Fund appropriation to the DOM for Iowa's Electronic Grant Management System.

DETAIL: This is a new appropriation for FY 2015. An appropriation of \$125,000 from the TRF was provided in FY 2013 for the expansion of the IowaGrants.gov portal to additional State agencies for compliance with Iowa Code section 8.9. IowaGrants.gov provides a single portal for potential applicants to search for open solicitations for ongoing grant programs offered by State agencies. The portal tracks all grants applied for and received by State agencies. The IowaGrants.gov project received an FY 2009 grant from pooled technology funds (through the DAS) of \$455,000 and an FY 2011 grant of \$414,000 to implement the System. Full implementation is anticipated by December 2014. In August 2008, a six-year contract was signed with a cap of approximately \$1,400,000 for implementation. According to the DOM, the total cost of implementation is projected to be below the contract cap by an estimated \$300,000.

11 23 7. DEPARTMENT OF PUBLIC HEALTH
 11 24 For costs associated with the establishment of a data
 11 25 registry software system for the collection of data elements
 11 26 related to emergency management system services or hospital
 11 27 emergency care:
 11 28 FY 2014-2015:
 11 29 \$ 150,000

Technology Reinvestment Fund appropriation to the Department of Public Health (DPH) for an Emergency Medical Services Data System.

DETAIL: This is a new appropriation for FY 2015. Existing DPH rules require that a verified trauma care facility submit reportable patient data via electronic transfer or in writing to the Department. Data is to be submitted in a format approved by the Department. Statute requires the Department to prepare compilations for release or dissemination on all reportable patient data entered into the trauma registry during the reporting period. The compilations are to include, but not be limited to, trends and patient care outcomes for local, regional and statewide evaluations. The compilations are to be made available to all providers submitting reportable patient data to the registry.

The Department is required to collect the data and the current outdated and insufficient systems do not meet the needs of the health care community. There are currently two separate systems collecting trauma and EMS data, both more than a decade old. This new data collection system is intended to make the collection of data more efficient, supporting multiple new data submission platforms, improving quality assurance and information sharing by taking advantage of technologies not in place when the current systems were developed.

11 30 8. BOARD OF REGENTS
 11 31 To Iowa State University of Science and Technology to
 11 32 purchase equipment and for related improvements to modernize
 11 33 the animal care facilities at the Blank Park Zoo as part of
 11 34 a cooperative effort of Blank Park Zoo and the College of
 11 35 Veterinary Medicine, notwithstanding section 8.57C, subsection
 12 1 2:
 12 2 FY 2014-2015:

Technology Reinvestment Fund appropriation to the Board of Regents for technology improvements related to the Vet Med program at the Blank Park Zoo.

DETAIL: This is a new appropriation for FY 2015. The appropriation will improve the internet bandwidth at the Blank Park Zoo by laying fiber optic cable to the site for high-speed data connectivity. The current configuration for internet connectivity at the Zoo provides little better than a digital subscriber line (DSL).

12 4 9. OFFICE OF THE CHIEF INFORMATION OFFICER

Technology Reinvestment Fund appropriation to the Office of the Chief Information Officer (CIO) for technology consolidation and technology improvement projects.

DETAIL: Section 11 of this Bill strikes a previously enacted appropriation made to the DAS for the same purpose and instead appropriates that funding, plus an additional \$1,100,000, to the Office of the CIO for the same purpose. This appropriation will be used for projects approved by the CIO for desktop software, network hardware, security software, server software, software development, critical system upgrades, and other improvements to eliminate redundant capabilities, provide centrally located resources, improve IT security
